WATER, AIR, AND SOIL POLLUTION / *Volume 140 Nos. 1–4 October 2002*

Y. MUSLU / Kinetics Characteristics of Biofilm Reactors 1–20
S.K. CHAULYA, M.K. CHAKRABORTY, M. AHMAD, R.S. SINGH, C. BONDYOPADHAY, G.C. MONDAL and D. PAL / Development of Empirical Formulae to Determine Emission Rate from Various Opencast Coal Mining Operations 21–55
M.K. DEB, M. THAKUR, R.K. MISHRA and N. BODHANKAR / Assessment of Atmospheric Arsenic Level in Airborne Dust Particulates of an Urban City of Central India 57–71
SHUANG-FU CHENG and ZENG-YEI HSEU / *In-Situ* Immobilization of Cadmium and Lead by Different Amendments in Two Contaminated Soils 73–84
O.S. FATOKI and A. NOMA / Solid Phase Extraction Method for Selective Determination of Phthalate Esters in the Aquatic Environment 85–98
P.J. EDWARDS, J.N. KOCHENDERFER, D.W. COBLE and M.B. ADAMS / Soil Leachate Responses during 10 Years of Induced Whole-Watershed Acidification 99–118
C.P. JORDÃO, M.G. PEREIRA and J.L. PEREIRA / Metal Contamination of River Waters and Sediments from Effluents of Kaolin Processing in Brazil 119–138
G.J. SOLÍS, E. ALONSO and P. RIESCO / Distribution of Metal Extractable Fractions during Anaerobic Sludge Treatment in Southern Spain WWTPS 139–156
S. SOLBERG, S. KVINDESLAND, D. AAMLID and K. VENN / Crown Condition and Needle Chemistry of Norway Spruce in Relation to Critical Loads of Acidity in South-East Norway 157–171
J.P. CHEN and S. YIACOUMI / Modeling of Depleted Uranium Transport in Subsurface Systems 173–201
E. SZAREK-GWIADZA and G. MAZURKIEWICZ-BOROŃ / Deposition of Copper in the Eutrophic, Submontane Dobczyce Dam Reservoir (Southern Poland) – Role of Speciation 203–218
ANCHENG LUO, JUN ZHU and P.M. NDEGWA / Influence of Anaerobic Pre-Conditioning on Phosphorus Removal in Swine Manure by Aeration 219–230
N. FAVERO and M.G. FRIGO / Biomonitoring of Metal Availability in the Southern Basin of the Lagoon of Venice (Italy) by Means of Macroalgae 231–246
FULU TAO, YOUSAY HAYASHI and ERDA LIN / Soil Vulnerability and Sensitivity to Acid Deposition in China 247–260
W. GEEBELEN, J. VANGRONSVELD, D.C. ADRIANO, R. CARLEER and H. CLIJSTERS / Amendment-Induced Immobilization of Lead in a Lead-Spiked Soil: Evidence from Phytotoxicity Studies 261–277
A. HADLEY and R. TOUMI / Non-Linearities between Atmospheric Sulphur and Sulphur Emissions 279–295
ZENG FENG, CUI KUNYAN, FU JIAMO, SHENG GUOYING and YANG HUIFANG / Biodegradability of Di(2-Ethylhexyl) Phthalate by *Pseudomonas Fluorescens* FS1 297–305
A. IKEM, O. OSIBANJO, M.K.C. SRIDHAR and A. SOBANDE / Evaluation of Groundwater Quality Characteristics Near Two Waste Sites in Ibadan and Lagos, Nigeria 307–333
H. BÖHNEL / Household Biowaste Containers (Bio-Bins) – Potential Incubators for *Clostridium Botulinum* and Botulinum Neurotoxins 335–341
M.R. GARNETT, S.J. MURCH, S. KRISHNARAJ, M.A. DIXON and P.K. SAXENA / The Rhizofiltration of Sodium from Hydroponic Fluid using Scented Geraniums 343–366
W. DABROWSKI, R.I. MACKIE and M. ZIELINA / Does Freezing Affect Sediment Sampling Results? 367–370
A. CARPI and YUNG-FOU CHEN / Gaseous Elemental Mercury Fluxes in New York City 371–379
T. BRAMRYD / Impact of Sewage Sludge Application on the Long-Term Nutrient Balance in Acid Soils of Scots Pine (*Pinus Sylvestris*, L.) Forests 381–399
P. SEUNTJENS / Field-Scale Cadmium Transport in a Heterogeneous Layered Soil 401–423
J. RUEDA, A. CAMACHO, F. MEZQUITA, R. HERNÁNDEZ and J.R. ROCA / Effect of Episodic and Regular Sewage Discharges on the Water Chemistry and Macroinvertebrate Fauna of a Mediterranean Stream 425–444
Authors Index 445–446
